Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1 and 3-30 are rejected under 35 U.S.C. 102(e) as being anticipated by US Patent no. 6,742,627 to Drabot et al.

Drabot et al disclose an elevator comprising a car; a supporting body; a suspension or hoisting means for carrying an operating weight, which suspension or hoisting means rests against the supporting body, the suspension means being one of rope-shaped and belt-shaped; a rope-shaped or belt-shaped power transmission means for moving the suspension or hoisting means via at least one moving surface; and a drive arranged to drive the power transmission means, the power transmission means being in tension against the suspension or hoisting means and being contact with the supporting body.
